

PLAY AREA CLOSED

- Coronavirus germs can survive on hard surfaces for several days.
- There may be no other users in the play area when you visit, but many other people have used the play area in the last few days.
- It is impractical for all equipment, gates and fences to be thoroughly disinfected between each user.
- As a result of this Edlesborough Parish Council has made the decision to close the Children's play area on Edlesborough Green.
- We ask that all parishioners respect this decision and do not enter the play area.

The Council appreciates that this decision may disappoint families however the Council believes parishioners safety is paramount.

Please be kind and keep your children in their own gardens and homes, for everyone's sake.
