

## **May 2021 Elections and Covid-19**

Buckinghamshire Council have confirmed the following in respect of the May Elections:

- We will have social distancing inside and out of the polling station and there will be staff member outside so social distancing can be maintained at all time.
- There will be no marking outside the polling station.
- Everyone will require masks to enter the polling station and wear them at all times unless they are exempt. The number of booths depends on the size of the room I would estimate two, possibly three at your location. Pencil will be supplied but as single use only.
- Covid rules and social distancing inside of the polling station will be policed by the presiding officer on the day and will use discretion on the amount of people let in, depending on the size of the hall.
- The polling staff will all be wearing face mask and will have protected screens in front of them when issuing ballot papers.
