- **4** Local priorities/ working groups
- **16** projects funded
- **100%** of budget allocated

Budget Breakdown 21/22

Total budget for
2021/2022
£193,128

Funding
allocated
£193,128

Project Summaries 21/22

Speed Indicator Devices: 5 parishes collaborated in the purchase of 12 Speed Indicator Devices. This allowed for a very good discount on the units themselves. The collaboration has also meant a good speed safety network amongst the board and knowledge sharing. Some parishes are already in agreements with neighbours on sharing the devices to further extend their use. The devices are solar powered which is great for the environment too.

Mental Health First Aiders: Mental Health First Aid training to school staff, to enable them to support the mental wellbeing of young people. This training is to be delivered by Bucks Mind. The course qualifies delegates as Youth Mental Health First Aiders and will give delegates the skills to identify, understand and help someone who may be experiencing a mental health issue.

Get Involved

We welcome anyone to get involved, come along to our working groups, share ideas and get involved with shaping the work we do. It's all about being creative, understanding the needs in the area and developing projects that will make a real difference. Contact our Community Board Manager to find out more.

Top 5 Successes 21/22

1. Parishes in the board have collaborated well and in doing so have made savings in projects such as highways and speed reduction, whilst sharing knowledge.
2. Budget allocated on a wide range of projects that often suited more than one priority.
3. Directed residents and neighbourhoods to the helping hands team. Some great outcomes. Vulnerable residents who lived alone were identified and are now receiving tailored support to enable them to live independently.
4. Working with coordinator knowledge on third party opportunities. 2 Parishes were awarded over £130k from FCC funding to support improvement on their accessibility and recreation offers.
5. Has provided accessible outdoor play/exercise equipment for children of a variety of ages to safely access in one space

Community Board Priorities. (To be formally agreed in September 2022)

Environment and Sustainability

Health and Wellbeing for All

Economic Support and Recovery

Ukraine and Refugee Sponsor support

Transport and Infrastructure

Budget 22/23

- The budget this year is £99,040
- Contributory funding is required for applications over £1000.
- The maximum amount that can be applied for is £15,000
- Small Grant Application for anything under £1000 in place
- New funding team in place who will administer applications

It has been an interesting year. One which started off slowly but has since resulted in some fantastic projects and collaboration taking place. We are all looking to build on the progress made, bringing successful outcomes for our communities. We are seeing the same pattern again so welcome new applications from all directions to see where we can help and support projects and initiatives.

The past year we had the great pleasure in not only contributing to projects within our parishes but linking up with outside partners to support further funding opportunities and share knowledge.

The Localities and Strategic Partnerships Service have employed a Youth Participation Officer. We have high hopes that this will strengthen our engagement with our youth and schools to open doors for residents of all ages to develop ideas together. Thank you for your efforts and continued support.

*Cllr Ashley Bond
Community Board Chairman.*

Next meeting: PROVISIONAL - 20th September 2022
