Accessibility statement

This statement applies to content published on:

- www.edlesborough-pc.gov.uk

As a minimum, you should be able to:

- zoom in up to 400% without problems
- navigate most of the website using just a keyboard
- operate most of the website using a screen reader

We've also tried to make the website text as simple as possible to understand.

For advice on making your device easier to use if you have a disability, visit AbilityNet.

How accessible this website is

Edlesborough-pc.gov.uk is partially compliant with WCAG 2.2 AA standards. However, we are constantly working to improve both our compliance and the experience of our users.

We know some parts of this website are not fully accessible:

- some pages and documents are not clearly written or structured
- some content such as images do not have good text alternatives
- some documents published before 23 September 2018 are not accessible but can be requested in an accessible format.

How accessible our documents are

New documents we publish and documents you need to download or fill in to access one of the services we provide should be fully accessible.

However, we know that some of our older documents are not accessible. For example, some of them:

- are in a PDF format that not all assistive technologies are able to read
- are in an image format (a scan or photocopy, for example) that cannot be understood through a screen reader
- are not tagged up properly - for example, they do not contain proper headings
- are not written in plain English.

Compliance Status

This website is partially compliant with the [Web Content Accessibility Guidelines version 2.2](#) AA standard, due to the following issues:

Non-accessible content

The content listed below is non-accessible for the following reasons.

Non-compliance with the accessibility regulations

PDFs and non-HTML documents

Some documents are not accessible in a number of ways including missing text alternatives and missing document structure.

Issues on Edlesborough-pc.gov.uk

1. Text not included in an ARIA landmark
Landmark roles provide information about page structure and can help assistive technology users with in-page navigation. Having text outside of the landmarks will make it more difficult to navigate to for some visitors.
- ~~2. Skip to main content link is missing~~
~~The first item reached by keyboard should be a link to the main content of the page. This link should be visible when receiving focus from the keyboard. Updated 02/12/25 as skip to main content link is now working.~~

Disproportionate burden

Not applicable.

Content that is not within the scope of the accessibility regulations

Documents published before 23 September 2018

Non-HTML documents published before September 2018 do not need to be accessible - unless users need them to use a service.

Third party content

Where we choose to feature third party content or functionality on our website, we are responsible for ensuring it meets accessibility standards. However, we are not responsible for the accessibility of third party platforms or content that is neither funded nor developed by us, or under our control. This includes:

- third party websites that we link to from this website and any of our other digital channels
- social media platforms
- data we supply to national databases
- third party content we are legally required to publish but is not in the control of Edlesborough Parish Council
