Date: Thursday, 20th August 2026 **Time:** 7.30pm

Venue: Edlesborough Memorial Hall, High Street, Edlesborough, LU6 2HX

A parishioner asked about the following two items;

1. Noise generated by the phone mast on High Street, opposite Edlesborough Memorial Hall. The parishioner outlined the process he has gone through trying to address the excessive noise generated by the phone mast. The mast can be heard inside properties of St Mary's Glebe and has now been reported to Environmental Health. He asked if the Council would support him in the future should the matter not be resolved. The parishioner will keep the Council updated of their progress.
2. What can be done to address the trees on the grass verge opposite Edlesborough Memorial Hall. He has reported his concerns to Buckinghamshire Council Fix my Streets. It has been confirmed that the trees fall under the jurisdiction of Buckinghamshire Council.

Action – Buckinghamshire Councillor Chris Poll will raise the issue with Buckinghamshire Councillor Peter Brazier who has been supporting the parishioner with this matter.

All other parishioners were in attendance to hear about item 5.

Council agreed that it would invite comments and questions from the parishioners once Councillor Wilkinson had outlined the Council's agreed response.

Improvements to Edlesborough Memorial Hall

9. Council considered the options and associated quotes for upgrading the Edlesborough Memorial Hall heating system, including:
 - 9.1 installation of new radiators in the main hall and kitchen;
 - 9.2 installation of high-level destratification fans to support the heating system;
 - 9.3 replacement of the boilers at Edlesborough Memorial Hall;
 - 9.4 installation of wall-mounted air conditioning heat pump units in the main hall and kitchen to replace the current heating system, including any associated costs for a suitable power supply;
 - 9.5 installation of electric heaters in the Edlesborough Memorial Hall toilets.

Council agreed that the primary reasons for upgrading the system were the excessive noise created by the fan heaters in the main hall and making the system more economical.

The Clerk confirmed that Matt Edwards had attended and had addressed the issue with the boiler flue. The possible issue with the expansion tank had not been addressed.

Council agreed that clarification needed to be sought from the contractors ensuring that the quotes had accounted for the heat loss of the building and that their recommendations will meet the hall requirements.

Action: Cllr Booth to help draft clarification questions for the Clerk to submit to the contractors.
